A RECORD . . .

In 1898 the graduating class of Becker's Business College numbered eighty-three. Of this number six returned to the school for an additional course; seven have not taken situations, but all the others have secured good positions. Of those who returned to school several have since taken situations, and a number of those who have not were given opportunities to do so.

IN ADDITION . . .

We have placed about forty of this year's pupils, and have been obliged to pass more than forty opportunities, as pupils were not ready.

A Natural Deduction. . . .

The young person who would succeed should select a school in which to prepare for business life whose pupils are thoroughly fitted, which has the confidence of the business public, and whose pupils are in demand. While Becker's College does not promise situations, it places more pupils than all others together. Send for catalogue.

PREFACE.

With this issue—No. 5—the MASSACHUSETTS YEAR BOOK adopts new features and becomes the MASSACHUSETTS YEAR BOOK AND BUSINESS DIRECTORY, necessitating a doubling in number of pages, and, as we believe, many times that increase in usefulness as a book of reference. Ever since the first number the publishers have felt that to make it satisfactory and complete, it should contain a list of all the business houses in the State; but the undertaking seemed so formidable, and the obstacles so great, that not until the present volume have long-cherished plans been realized. That Massachusetts alone, of all the New England States, should be without a State Business Directory seemed almost incredible, and with a firm belief in the ultimate success and popularity of such a hand-book, the work was begun with earnestness and prosecuted with vigor. The result is before you.

To begin at the very beginning, collect through personal canvass, classify, arrange in alphabetical order and print nearly two hundred thousand names of professional and business firms in three hundred and fifty-three cities and towns, including the great city of Boston, has been no mean task. That it has been faithfully and conscientiously performed we positively assert. That it is not *perfect* we admit. That some names may be misspelled, or even overlooked entirely, is doubtless true. That it will compare favorably with other works of similar nature we feel sure, and invite critical examination. It may be a surprise to many that so much material is contained in so small a volume. To these we would say that it is none the less complete; the type is exceedingly small, though distinct; the paper thin and compact; a mechanical study of condensation has been made, and useless repetitions have been avoided. Every business house will be found entered under at least one heading, and where necessary under several. Towns and cities are arranged alphabetically, and the entire business interests of each can be seen at a glance. Thus we have practically three hundred and fifty-three directories in one compact volume. All the most valuable features of the old book have been retained, though in still smaller space than before, and we invite a careful perusal of the Table of Contents for matters of general information concerning the Commonwealth. Especially would we call to notice the historical article on Gubernatorial Elections, by ex-Senator Alfred S. Roe, as a record of rare value to those who follow the political fortunes of the State. The record of Massachusetts volunteers in the late Spanish War is the only complete and trustworthy compilation of these events as applied to our own State yet published. As a directory of public officials—National, State, County, City and Town—the YEAR BOOK has always occupied an exclusive field, and in this respect the present volume is even more perfect than before.

An intelligent and systematic daily use of the YEAR BOOK will surely demonstrate its comprehensive scope and usefulness.

"PUREOXIA"

Pure, Palatable, Distilled TABLE WATER.

Not a "Cure-all." Not an Expensive Mineral Water.
Not a Filtered Water.

Simply a PURE DISTILLED WATER.

Refreshing to the Palate and Purifying to the System.

The medical profession uses it for cleansing the blood, kidneys, and other delicate organs clogged with earthy salts.

Chemists use it for delicate professional work.

Photographers use it for the "bath."

Confectioners use it in making pure white goods.

Hotels, restaurants and householders use it to give a keener taste and relish to the food supplied, and to avoid the bad flavor from impure water.

Bottlers use it for making delicate flavors, mineral waters, etc. Artificial lithia water is far preferable to any natural brand, as well as safer.

Paper-makers use it for making delicate white and shaded papers.

Print and dye works use it for making pure colors.

Women use it for beautifying the skin. It is the safest, cheapest, and most efficient cosmetic know.

Once having used "PUREOXIA" DISTILLED WATER, you will use no other.

The only Distilled Water that is Palatable without Aeration or Without Treatment.

GUBERNATORIAL ELECTIONS IN MASSACHUSETTS.

BY HON. ALFRED S. ROE.

Under the Constitution, thirty-five men have held the office of chief executive. This number does not include lieutenant-governors who have been acting governors, nor the one instance of the Executive Council serving in that capacity.

By special act, the first election for governor was had September 4, 1780, that day being the first Monday in the month, and thereafter till 1831 the elections came on the first Monday in April. The governor held his office for one year after the last Wednesday in May, this system obtaining till 1832, when his term began on the first Wednesday in January.

For many years the Legislative Manual has given the names of the governors and their terms of office, but curiosity is often piqued to know who the defeated ones were, and what were the politics of those winning as well as of those vanquished; an effort is made herein to satisfy such pardonable desire and, at the same time, to give sundry other facts which may be of utility. Lack of space prevents giving the natural biographical data which each name suggests and the items of political interest, once momentious, but now largely forgotten. It is exceedingly difficult at this date to trace the issues on which parties divided 100 years ago. At first there were Federallsts and Anti-Federalists; the latter gradually grew to be called Democratic-Republicans, next Republicans, and finally Democrats. To the Federalists succeeded the National Republicans, who became, after a while, Whigs. The later Republican party was made up of Free Soil Whigs and Democrats.

In the following list are given, first, the year and day of the election; the total vote, the name of the successful candidate, and, in most cases, those of the leading defeated ones. It must be remembered that Massachusetts included the district of Maine till 1820.

1780, September 4, the total vote was 12,281, not including Dukes and Nantucket, for which no returns are found; JOHN HANCOCK had 11,207; James Bowdoin, 1,033; all others, 41, from one to six votes being cast for Sam. Adams, Jos. Hawley, John Worthington, Jeremiah Powell, John Adams, Robert Treat Paine, James Otis, Stephen Choate, Wm. Cushing, Geo. Watson, Artemas Ward, Benj. Lincoln, James Sullivan, Azor Orne and Ebenezer Mann. Hancock was a Federalist in politics, as was Bowdoin also. The issue seemed to be one of personal preference.

1781, April 2; total vote, 8,585; JOHN HANCOCK had 7,996; all others 589; James Bowdoin was still the leading opponent, but a long ways behind; votes were cast for twenty-four others.

1782, April 1; total vote, 7,744; JOHN HANCOCK had 5,855; all others, 1,889; James Bowdoin is again a poor second, with a field of forty-one, the majority of them receiving a single vote.

1783, April 7; total vote, 9,108; JOHN HANCOCK had 6,693; Jas. Bowdoin creeps slowly up, though still a long ways behind, with thirteen following him; this number would, doubtless, be increased were all the counties reported; for this year and the following the returns, as preserved, are imperfect.

1784, April 5; total vote, 7,631; JOHN HANCOCK had 5,160; the opposition is divided among thirty-eight men, including James Bowdoin and nearly all those voted for in 1780; sometimes the entire vote of a township is thrown for a local favorite.

1785, April 4; total vote, 9,065; James Bowdoin had 3,519; Thomas Cushing, 3,005; Benj. Lincoln, 1,145; Oliver Prescott, 298; the remaining votes were scattered among forty-six men, including John Hancock, who, on account of illness, had declined being a candidate; as there was no election by the people the contest was thrown into the Legislature, where May 26, at 4 P. M., in accordance with the terms of the Constitution, "two out of four persons who had the highest number of votes" were named to be reported to the Senate for election. The House gave Thomas Cushing 134 votes and

James Bowdoin 89. Later in the same day, the Senate elected JAMES BOWDOIN by a large majority. Both Bowdoin and Cushing were Federalists; indeed, all the candidates named differed very little in political belief. Their votes arose, largely, from personal and local causes. Cushing was the first lieutenant-governor under the Constitution. Lincoln was the Revolutionary general of Hingham, and Prescott was a Groton physician, though he later moved to Newburyport, where he died. The names of these men appear for years, with more or less following, in the returns of gubernatorial votes.

1786, April 3; total vote, 8,231; JAMES BOWDOIN had 6,001; John Hancock, 1,220; the remaining votes were divided among thirty-three men, including some of the most notable in the State.

1787, April 2; total vote, 24,588; JOHN HANCOCK had 18,459; James Bowdoin, the leading competitor, was badly beaten, having only 5,414 votes; his firmness in suppressing Shays' Rebellion the preceding year completely destroyed his popularity, and reinstated Hancock; the remaining ballots were shared by eighteen men.

1788, April 7; total vote, 22,157; JOHN HANCOCK had 17,841; Elbridge Gerry, 4,105; sixteen others, including James Bowdoin, the remainder. Gerry was a follower of Thomas Jefferson, then called a Republican, really a believer in what was later known as the Democracy.

1789, April 6; total vote, 21,384; JOHN HANCOCK had 17,264; James Bowdoin, 3,458; twenty-three others, what was left.

1790, April 5; total vote, 16,518; JOHN HANCOCK had 14,283; James Bowdoin, 1,886; all others, the balance. As ex-Gov. Bowdoin died Nov. 6 of this year, he disappeared as a candidate, though his son, James, took his place among the scattering for the next fifteen years.

1791, April 4; total vote, 17,032; JOHN HANCOCK had 15,996; Francis Dana, 278; the remaining ballots were scattered among forty men; Dana, a Federalist, from 1791 to 1806 was chief justice of the Supreme Court of Massachusetts. He was the father of Richard H. Dana, 'st, America's earliest poet of note.

1792, April 2; total vote, 16,894; JOHN HANCOCK had 14,628; Francis Dana, 826; Samuel Phillips, 610; the balance was scattered among forty-seven men. Phillips, a Federalist, was president of the State Senate.

1793, April 1; total vote, 18,266; JOHN HANCOCK had 16,428; Elbridge Gerry, 669; all others, thirty-seven men, the remainder. As Gov. Hancock died in office Oct. 8, 1793, his name disappears from subsequent lists.

1794, April 7; total vote, 23,454; SAMUEL ADAMS had 14,425; Wm. Cushing, 6,997; the remaining ballots were cast for thirty-five different men. Adams was opposed by the Federalists; he was a moderate Republican or a modern Democrat. Cushing, a Federalist, was the first chief justice of the Supreme Court under the Constitution, resigning in 1789 to become an associate justice of the U. S. Supreme Court.

1795, April 6; total vote, 17,710; SAMUEL ADAMS had 15,976; Wm. Cushing, 535; forty-eight others had the remainder in varying numbers.

1796, April 4; total vote, 26,493; SAMUEL ADAMS had 15,195; Increase Sumner, 10,196; twenty-eight men received the rest. Sumner was a Federalist and a judge of the Supreme Court.

1797, April 3; total vote, 25,658; INCREASE SUMNER had 14,540; James Sullivan, 6,810; Moses Gill, 3,502; thirty-nine others the remainder. Sullivan was a Republican; Gill, a Federalist.

1798, April 2; total vote, 21,259; INCREASE SUMNER had 18,245; James Sullivan, 1,943; thirty-eight other names received votes.

1799, April 1; total vote, 33,013; INCREASE SUMNER had 24,073; Wm. Heath, 7,709; forty-three men were remembered in the remaining ballots. Sumner died in office June 7, 1799. Heath was a Revolutionary general of Republican tendencies, living in Roxbury.

1800, April 7; total vote, 39,059; CALEB STRONG had 19,630, a majority of only 100 votes; Elbridge Gerry, 16,050; the remaining vote was scattered among forty-two men. Strong was a thorough Federalist and Gerry a Republican, the name by which the Democrats of a century ago were known. Strong had been the first senator in the Federal Congress and was, by all odds, the most popular man in the Connecticut valley. Northampton was his home.

1801, April 6; total vote, 45,816; CALEB STRONG had 25,452; Elbridge Gerry, 18,984; forty-five other names were balloted for.

1802, April 5; total vote, 49,583; CALEB STRONG had 29,983; Elbridge Gerry, 19,443; thirty other names had scattering votes.

1803, April 4; total vote, 43,409; CALEB STRONG had 29,199; Elbridge Gerry, 13,850; forty-two other names appear in the summary.

1804, April 2; total vote, 54,499; CALEB STRONG had 30,011; James

Sullivan, 23,996; the aggregates include thirty-eight other names.

1805, April 1; total vote, 68,986; CALEB STRONG had 35,204; James Sullivan, 33,517; the remaining ballots, less than three hundred, went to twenty-nine others.

1806, April 7; total vote, 75,171; CALEB STRONG had 37,740; James Sullivan, 37,009; forty others had what was left.

1807, April 6; total vote, 81,503; JAMES SULLIVAN had 41,954; Caleb Strong, 39,224; 325 votes were scattered among no less than 281 individuals; this was the long-delayed Democratic triumph, though it was called Republican then. Governor Sullivan of Boston had long been known as Judge Sullivan, having sat on the Supreme bench from 1776 to 1782.

1808, April 4; total vote, 81,147; JAMES SULLIVAN had 41,193; Christopher Gore (Federalist), 39,643; sixty-eight men divided the remaining 311 votes. Governor Sullivan died in office Dec. 10, 1808; and the next year the State lapsed again into Federalism.

1809, April 3; total vote, 93,322; CHRISTOPHER GORE had 47,916; Levi Lincoln (Republican), 45,118; the remaining 288 ballots went to 85 persons. Lincoln was the father of the subsequent governor, Levi Lincoln. Governor Gore was the law preceptor of Daniel Webster, and in 1814 was elected to the U. S. Senate.

1810, April 2; total vote, 90,813; ELBRIDGE GERRY had 46,511; Christopher Gore, 44,079; what was left, 193 votes, went to thirty-four individuals; a Republican victory then, it would be called Democratic now.

1811, April 1; total votes, 83,917; ELBRIDGE GERRY had 43,328; Christopher Gore, 40,142; thirty-eight others had 447 scattering votes.

1812, April 6; total vote, 104,156; CALEB STRONG had 52,696; Elbridge Gerry, 51,326; thirty-four others had the remaining 134 ballots; the State was again Federal, but Gerry's grief was alleviated by his being elected vice-president this year, living, however, only two years to enjoy his honors.

1813, April 5; total vote, 100,223; CALEB STRONG had 57,754; Joseph B. Varnum (Republican), 42,789; thirty-seven persons had 680 ballots. J. B. Varnum of Dracut was at this time U. S. senator, having been a representative in Congress for many years. He had been speaker of the national House and later was acting vice-president of the U. S. He had won fame in the Revolutionary War.

1814, April 4; total vote, 102,236; CALEB STRONG had 56,374; Samuel Dexter (Republican), 45,953; one hundred and fifty votes were scattered among fifty-four men. Dexter had been in both branches of Congress; had been secretary of war and of the treasury. Originally a Federalist, he had drifted in to Republicanism.

1815, April 3; total vote, 94,433; CALEB STRONG had 50,921; Samuel Dexter, 43,938; all others, fifty-eight in number, had 158 ballots.

1816, April 1; total vote, 97,084; JOHN BROOKS had 49,578; Samuel Dexter, 47,153; forty-three others received 253 votes; Brooks was a Federalist. Apparently Dexter's Republicanism had grown cold, for on his nomination he wrote, stating that he differed widely from those thus honoring him. This was only a few weeks before his death, which took place in Athens, N. Y., May 3, 1816.

1817, April 7; total vote, 84,496; JOHN BROOKS had 46,160; Henry Dearborn (Republican), 38,129; 207 scattering ballots were cast for 59 persons. General Dearborn had been conspicuous in the War of the Revolution and that of 1812.

1818, April 6; total vote, 70,929; JOHN BROOKS had 39,538; Benj. W. Crowninshield (Republican), 30,041; the remaining 1348 ballots went to eighty men. B. W. C. was a Salem man, long in public life, had been secretary of the navy in cabinets of Madison and Monroe; later was a representative in Congress.

1819, April 5; total vote, 79,885; JOHN BROOKS had 42,875; Benj. W. Crowninshield, 35,271; the 1739 scattering votes went to sixty-seven individuals.

1820, April 3; total vote, 53,297; JOHN BROOKS had 31,072; Wm. Eustis (Republican), 21,927; sixty-one others had 298 votes. This was the first election after the setting off of the district of Maine, hence the falling off in the vote. Doctor Eustis had been a surgeon in the army throughout the Revolution, and for several years had been a representative in Congress. Also secretary of war in Madison's Cabinet.

1821, April 2; total vote, 49,086; JOHN BROOKS had 28,608; Wm. Eustis, 20,268; 210 votes were scattered among eighty-six names.

1822, April 1; total vote, 49,849; JOHN BROOKS had 28,487; Wm. Eustis, 21,177; all others, 185; neither names nor numbers given.

1823, April 7; total vote, 65,330; WILLIAM EUSTIS had 34,402; Harrison Gray Otis (Federalist), 30,171; all others, 757; a Republican victory; in later parlance, Democratic. Wm. Eustis was the last man of Revolutionary note elected to the office of governor. He ended the first period in the political history of the State. Otis, nephew of James Otis, was ac-

counted one of the finest gentlemen of his day and a Federalist to the core. He was repeatedly president of the Senate.

1824, April 5; total vote WILLIAM EUSTIS had 38,650; Samuel Lathrop (Federalist), 34,210; all others, 191; Governor Eustis died in office Feb. 6, 1825. Lathrop was one of the most noted citizens of Springfield, afterwards president of the Senate.

1825, April 4; total vote, 37,426; LEVI LINCOLN had 35,271; scattering, 2,205; there appeared to be no organized opposition to the election of Lincoln, who was a Democratic Republican, but had been nominated by the Federalists also. Diligent search in the archives reveals nothing further than the above.

1826, April 3; total vote, 39,992; LEVI LINCOLN had 27,884; Samuel Hubbard (Federalist), 9,082; there were 3,026 votes given to 180 different men. Hubbard was a Boston lawyer of distinction; in 1842 he was made a judge of the Supreme Court.

1827, April 2; total vote, 39,119; LEVI LINCOLN had 29,029; Wm. C. Jarvis (Free Bridge), 7,130; scattering, 2,960; among the half dozen names thus honored was that of Daniel Webster. Opposition to Governor Lincoln arose from his vetoing the Charlestown Free Bridge Act. It is probable, too, that the governor's opinions were undergoing change, for, thereafter, there was steady Republican opposition and when he left his office in 1834, he was a Whig.

Jarvis was a soldier of fortune, long prominent in affairs, representing at different times, Pittsfield, Charlestown and Woburn in the General Court. He ended life, finally, by suicide at his father's home, Weathersfield, Vt. In 1827 and later he was speaker of the House. His father, William, and his grandfather, Dr. Charles, had been conspicuous men in State and nation.

1828, April 7; total vote, 34,318; LEVI LINCOLN had 27,981; Marcus Morton (Republican), 4,423; scattering, 1,914. Morton was a Taunton lawyer, later governor.

1829, April 6; total vote, 35,203; LEVI LINCOLN had 25,217; Marcus Morton (Democrat), 6,864; scattering, 3,122. The name Democrat replaced Republican with the advent of Andrew Jackson.

1830, April 5; total vote, 47,173; LEVI LINCOLN had 30,908; Marcus Morton (Democrat), 14,440; scattering, 1,825.

1831, April 4; total vote, 48,895; LEVI LINCOLN had 31,875; Marcus Morton (Democrat), 12,694; Heman Lincoln, 923; Henry Shaw, 860; the last two were voted for, principally, in Hampshire county, though some ballots were cast for them in Worcester county; Daniel Webster and H. G. Otis appeared in the scattering vote, which was 2,563. Heman Lincoln was a Baptist minister and professor in Newton Theological Seminary. Henry Shaw of Lanesborough had been in Congress and for many years a member of the General Court. He was the father of "Josh Billings."

By the tenth amendment to the Constitution, ratified by the people May 11, 1831, the Legislature began thereafter on the first Wednesday in January, and the election of all State officers was ordered on the second Monday in November. Accordingly in 1831, Nov. 14, a second election was held for officers to serve through 1832, resulting as follows: Total vote, 53,415; LEVI LINCOLN had 28,804; Samuel Lathrop (Anti-Masonic), 13,357; Marcus Morton (Democrat), 10,975; scattering, 279; possibly Lincoln is less a Democrat than formerly; at any rate Democratic opposition increases. Lathrop had been the Federal candidate in 1824.

The inauguration of the government for 1832, January 4, was the first to take place at the beginning of the year and the first Wednesday in January has been the date for that event to the present. It should be noted that the following data are, in every instance, for the governor during the subsequent year.

1832, Nov. 12; total vote, 64,223; LEVI LINCOLN had 33,946; Marcus Morton (Democrat), 15,197; Samuel Lathrop (Anti-Masonic), 14,753; scattering, 327.

1833, Nov. 11; total vote, 62,474; John Davis (Whig) had 25,149; John Quincy Adams (Anti-Masonic), 18,274; Marcus Morton (Democrat), 15,493; Samuel C. Allen, 3,459; scattering, 99, and there was no election by the people. Jan. 8, 1834, the House voted to send the names of Davis and Morton to the Senate, and, on the 9th, that body voted, JOHN DAVIS, 30; Marcus Morton, 4; blanks, 3; Mr. Davis was a Whig and was popularly called "Honest John Davis."

1834, Nov. 10; total vote, 75,346; JOHN DAVIS (Whig) had 43,753; Marcus Morton (Democrat), 18,683; John Bailey (known as an Adams man), 10,160; Samuel C. 1838, Nov. 12; total vote, 93,941; EDWARD EVERETT (Whig), 51,642; Marcus Morton (Democrat), 41,795; scattering, 504; the name of Wendell Phillips appears in the field and continued to do as nearly as long as he lived.

1839, Nov. 11; total vote, 102,066; MARCUS MORTON (Democrat) had 51,034; Edward Everett (Whig), 50,725; scattering, 307. This is the famous election in which the Democrat Morton won by a single vote, which at least a hundred patriots claimed to have cast.

1840, Nov. 9; total vote, 127,231; JOHN DAVIS (Whig) had 70,884; Marcus Morton (Democrat), 55,169; Geo. W. Johnson, 1,081; Seth Sprague, 57; fifty others shared the scattering 130 votes.

1841, Nov. 8; total vote, 111,095; JOHN DAVIS (Whig) had 55,974; Marcus Morton (Democrat), 51,367; Lucius Rockwood, 3,488; Wendell Phillips, 120; thirty-seven others received the scattering 146 votes.

Sewall, 6,382, the first considerable Free Soil vote; scattering, 180, divided among 60 individuals, and there was no election by the people. Jan. 16, 1843, the House sent up to the Senate the names of Morton and Davis, the former having 174 votes, just the number necessary for the first place. On the 17th, the Senate voted MARCUS MORTON, 27; John Davis, 11, and again Massachusetts had a Democratic governor.

1843, Nov. 13; total vote, 121,288; George N. Briggs (Whig) had 57,899; Marcus Morton (Democrat), 54,242; Samuel E. Sewall (Free Soil), 8,901; Francis Jackson, 66; fifty others had 246 votes; and there was no choice by the people. Jan. 8, 1844, the House sent up to the Senate the names of Briggs and Morton and the Senate chose GEORGE N. BRIGGS. The Senate vote is not recorded.

1844, Nov. 11; total vote, 134,225; GEORGE N. BRIGGS (Whig) had 69,576; George Bancroft (Democrat), 54,714; Samuel E. Sewall (Free Soil), 9,635; thirty-three individuals had 306 votes.

Then followed the so-called Coalition, in which Democrats and Free Soilers, in the Legislature, united against the Whigs.

May 23, 1855, the voters of the Commonwealth ratified the XIV Amendment to the Constitution whereby a plurality, thereafter, should elect any state officer, thus obviating the vexatious Legislative elections; also was ratified the XV Amendment, which directed the holding of State elections on the 1st Tuesday after the 1st Monday, this conforming to date of choosing presidential electors.

WEATHER BUREAU.

U. S. DEPARTMENT OF AGRICULTURE—NEW ENGLAND SECTION OF THE CLIMATE AND CROP SERVICE.

Office, Post Office Building, Boston.

As a supplement to the work of the National Weather Bureau, nearly all the states and territories now have voluntary weather signals, which serve as means for collecting and distributing valuable information. The six New England States are all under one management, called the *New England Section of the U. S. Department of Agriculture Weather Bureau, Climate and Crop Service.* Its headquarters are at Boston, with Mr. John W. Smith, local forecast official and section director.

Monthly reports of temperature, precipitation, etc., are collected from about ninety voluntary observers in this State. The data are printed in the *Monthly Weather Review*, published at Washington, and also issued in bulletin form from the Boston office.

Weekly reports on the weather and its effect on the crops and the condition of the latter are collected on Mondays, during the crop season, from some fifty representative sections of the State, summarized, and issued in connection with reports from the rest of New England, in printed form, on Tuesdays. Three thousand copies are regularly distributed in Massachusetts through the coöperation of the State Board of Agriculture.

Regular forecasts of the weather and special frost, cold wave and storm warnings are telegraphed to a large number of places in the State at government expense, and any place will be added to this list where action will be taken to have signal flags displayed for the benefit of the public. Special distribution of these forecasts in agricultural communities is made by telegraphing the message to some central point to a person furnished with logotypes and stamping outfit, who immediately reproduces the forecasts and sends by mail to all surrounding post offices that can be reached before night. The cards give the forecast of the probable weather for all the following day.

POSTAL INFORMATION.

Direct your mail matter to a post office, and if to a city, add the street and number or post office box of the person addressed. If you are not certain that the place to which you wish to send is a post office, inquire of the postmaster. Matter not addressed to a post office cannot be forwarded. To insure certainty in dispatch of mail, give the county in which the post office is situated, and spell the name of the state in full. Write or print your name and address, and the contents, if a package, upon the upper left-hand corner of all mail matter. This will insure its immediate return to you for correction, if improperly addressed, or insufficiently paid, and if it is not called for at its destination, it can be returned to you without going to the Dead Letter Office. If a letter it will be returned free. Register all valuable letters and packages. Registry fee eight cents, which, with the postage, must be fully prepaid. The name and address of sender must be given on the outside of the wrapper or envelope of all registered matter.

CLASSES OF MAIL MATTER AND RATES.

Domestic mail is divided into four classes, as follows:

FIRST CLASS.—Letters, postal cards and matter wholly or partly in writing, whether sealed or unsealed (except manuscript copy accompanying proof-sheets or corrected proof-sheets of the same), and all matter sealed or otherwise closed against inspection. Rates of postage—Two cents per ounce or fraction thereof. Postal cards, one cent each. Private mailing cards with written messages, conforming to government cards in size and quality, and to the regulations prescribed by the postmaster-general, one cent each. On "drop" letters two cents per ounce or fraction thereof, when mailed at letter-carriers' office; and one cent per ounce or fraction thereof at other offices.

SECOND CLASS—Newspapers and publications issued at stated intervals as often as four times a year, bearing a date of issue and numbered consecutively, issued from a known office of publication, and formed of printed sheets, without board, cloth, leather or other substantial binding. Such publications must be originated and published for the dissemination of information of a public character, or devoted to literature, the sciences, art, or some special industry. They must have a legitimate list of subscribers, and must not be designed primarily for advertising purposes, or for circulation free, or at nominal rates. Rate of postage—For publishers and news agents, one cent a pound or fraction thereof. For others than publishers and news agents, one cent for each four ounces or fraction thereof.

THIRD CLASS.—Books, periodicals and matter wholly in print (not included in second class), proof-sheets, corrected proof-sheets and manuscript copy accompanynig the same. Rate of postage—One cent for each two ounces or fraction thereof.

FOURTH CLASS.—Merchandise—namely, all matter not embraced in the other three classes, and which is not in its form or nature liable to destroy, deface or otherwise damage the contents of the mail bag, or harm the person of any one engaged in the postal service, and not above the weight provided by law. Rate of postage—One cent per ounce or fraction thereof, but on seeds, cuttings, roots, scions and plants, one cent for each two ounces or fraction thereof.

LIMIT OF WEIGHT.

A package must not exceed four pounds in weight, unless it be a single book. Second class matter is not subject to the four-pound limitation.

REGISTRY SYSTEM.

All mailable matter, including drop letters, may be registered; but not matter addressed to fictitious names, initials or box numbers, or bearing vague and indefinite addresses.

The registry fee is eight cents in addition to postage. It must be prepaid by stamps affixed.

SPECIAL DELIVERY.

By the affixing of a special delivery stamp of **ten cents**, in addition to the regular postage, any mail matter whatsoever will be delivered immediately after arrival to any point within the carrier limits of any free delivery office between the hours of 7 A. M. and 11 P. M., and within one mile of all other post offices between the hours of 7 A. M. and 7 P. M.

RATES OF POSTAGE TO CANADA AND MEXICO.

(The Dominion of Canada embraces all the British North American Provinces except Newfoundland.)

LETTERS AND POSTAL CARDS—Same rates and conditions of prepayment of postage as for United States letters and postal cards.

OTHER MATTER—Same rates and conditions of transmission as for matter for delivery within the United States, except that all sealed packages which evidently are not letters are excluded. Other matter must be so wrapped or enclosed as to permit their contents to be easily examined by postmasters or customs officials.

MEXICO—All articles of every kind or nature which are admitted to the domestic mails of the United States are admitted under the same conditions and at the same rates to the mails of Mexico; except that articles of miscellaneous merchandise (fourth class matter) not sent as bona fide trade samples, are required to be sent by "parcels post" at the rate of **twelve cents per pound** or fraction thereof, with a "customs declaration," properly filled out, attached to it.

POSTAGE TO FOREIGN COUNTRIES.

Letters, five cents per half ounce or fraction thereof (fifteen grams being the postal equivalent of half an ounce).

Postal cards, two cents each.

Registration fee, eight cents.

Printed matter and samples of merchandise, one cent for each two ounces or fraction thereof.

On the wrapper may also be written the names and number of articles enclosed. The sender is further allowed to mark a word or passage in a book or paper to which he desires to call special attention. He may also write a simple inscription or dedication upon the cover or blank leaves of a book or pamphlet. There may be attached to articles of merchandise, by tag or label, a mark, number, name or letter, for purpose of identification. Printed circulars may contain the written name of the sender, or of the addressee, and the date. Any other writing on third or fourth class matter will subject the package to letter rates of postage, and render the sender liable to a fine of ten dollars for each offense. Printed matter may be enclosed with fourth class matter, but the whole package is subject to the rate of one cent per ounce or fraction thereof. Packages containing more than one class of postal matter will subject the whole at the rate of the highest class enclosed.

REFORWARDING.

Letters will be reforwarded from one post office to another upon the written request of the person addressed without additional charge for postage; but packages of third and fourth class matter cannot be forwarded or returned without new payment of postage.

LOTTERY MATTER.

No letter or circular concerning lotteries, so-called gift concerns, or other similar enterprises offering prizes, or concerning schemes devised and intended to deceive and defraud the public, for the purpose of obtaining money under false pretences, shall be carried in the mail. NATURALIZATION LAWS OF THE UNITED STATES.

The conditions and the manner in which an alien may be admitted as a citizen of the United States are prescribed by Sections 2,165-74 of the Revised Statutes of the United States.

DECLARATION OF INTENTION. — An alien seeking naturalization must declare on oath before a circuit or district court of the United States, or a district or supreme court of the territories, or a court of record of any of the states having common-law jurisdiction, and a seal and clerk, at least two years prior to his admission, that it is, bona fide, his intention to become a citizen of the United States and to renounce forever all allegiance and fidelity to any foreign state or prince, and particularly to the one of which he may be at the time a citizen or subject.

OATH ON APPLICATION FOR ADMISSION.—At the time of his application to be admitted he must declare on oath, before some one of the courts above specified, "that he will support the Constitution of the United States, and that he absolutely and entirely renounces and abjures all allegiance and fidelity to every foreign prince, potentate, state or sovereignty, and particularly by name, to the prince, potentate, state or sovereignty of which he was before a citizen or subject," which proceedings must be recorded by the clerk of the court.

CONDITIONS OF CITIZENSHIP. — It must appear to the satisfaction of the court to which he has applied that the alien has resided continuously within the United States for at least five years, and within the state or territory where such court is at the time held one year at least, and that during that time "he has behaved as a man of good moral character, attached to the principles of the Constitution of the United States and well disposed to the good order and happiness of the same."

TITLES OF NOBILITY.—If the applicant bears any heredity title or belongs to any order of nobility, he must make an express renunciation of the same at the time of his application.

SOLDIERS AND NAVY SAILORS.—Any alien twenty-one years old and upward who has been in the armies or navies of the United States, and has been honorably discharged therefrom, may become a citizen on his petition, without any previous declaration of intention, provided that he has resided in the United States at least one year previous to his application, and is of good moral character.

MINORS.—Any alien under the age of twenty-one years who has resided in the United States three years next preceding his arriving at that age, and who has continued to reside therein to the time he may make application to be admitted a citizen thereof, may, after he arrives at the age of twenty-one years and after he has resided five years within the United States, including the three years of his minority, be admitted a citizen; but he must make a declaration on oath and prove to the satisfaction of the court that for two years next preceding, it has been his bona fide intention to become a citizen.

CHILDREN OF NATURALIZED CITIZENS. — The children of persons who have been duly naturalized, being under the age of twenty-one years at the time of the naturalization of their parents, shall, if dwelling in the United States, be considered as citizens thereof.

CITIZENS' CHILDREN WHO ARE BORN ABROAD.—The children of persons who now are or have been citizens of the United States are, though born out of the limits of jurisdiction of the United States, considered as citizens thereof.

CHINESE. — The naturalization of Chinamen is expressly prohibited by Section 14, Chapter 126, Laws of 1882.

PROTECTION ABROAD TO NATURALIZED CITIZENS.—Section 2,000 of the Revised Statutes of the United States declares that "all naturalized citizens of the United States while in foreign countries are entitled to and shall receive from this government the same protection of persons and property which is accorded to native-born citizens."

THE RIGHT OF SUFFRAGE.—The right to vote is conferred by the State. Naturalization is a Federal right, and is a gift of the Union, not of any one state. In many states aliens (who have declared intentions) vote and have the right to vote equally with naturalized or native-born citizens; in the others only actual citizens may vote. The Federal naturalization laws apply to the whole Union alike, and provide that no alien may be naturalized until after five years' residence, except an honorably discharged soldier, or a person whose parents have been naturalized while he was under twenty-one years of age, as above recited. Even after five years' residence and due naturalization, he is not entitled to vote unless the laws of the state confer the privilege upon him, and he may vote in several states six months after landing, if he has declared his intention, under United States law, to become a citizen.

QUALIFICATIONS OF VOTERS.

MEN.—A voter must be a citizen, at least twenty-one years old.

He must have resided in the state one year, and in the city or town where he wishes to vote six months, immediately preceding the election for city, town, county, state or national officers at which he desires to vote.

He must be able to read the Constitution of the Commonwealth in the English language, and to write his name, though this provision does not exclude those physically disqualified, nor those who were voters when amendment 20 was adopted, 1857, or were above sixty years of age at the time.

Paupers and persons under guardianship cannot vote, though pauperism does not exclude men who have served in the army or navy of the United States, in the time of war, and have been honorably discharged therefrom.

WOMEN.—Women may vote for members of the school committee on the same terms as those prescribed for men.

NOMINATIONS.

For the privilege of nominating candidates at a regularly constituted convention to secure places on the official ballot, a party must have cast at least three per cent. of the total vote at the last preceding election. Through this law, only Democrats and Republicans can at present nominate as above. All others have to secure names upon a petition, thus obtaining places on the official ballot by what are called nomination papers. For a State office the requisite number of names is one thousand, and this number is proportionately reduced in city and town nominations. In 1895 the following provisions were so far modified that a party which at the preceding five elections had cast as large a number of votes as was necessary to nominate for that office might nominate in the same manner as those casting a three per cent. vote.

CAUCUSES.

They cannot be held other than on one of two consecutive dates named by the committee.

The call must be at least twenty-one days before the date of the proposed caucus.

No two political parties can hold caucuses on the same day.

All delegates to conventions must be elected as above, save those to representative conventions, for which purpose caucuses may be held on one of two consecutive days one week later.

THE NEW STATE HOUSE,

OR THE STATE HOUSE EXTENSION.

This project was begun in 1888, May 17, by an act taking land north of the old structure and furthered by an act, May 25, 1888, empowering the Governor and Council to report to the next Legislature a plan for the better accommodation of the State government in the city of Boston. In 1889 an appropriation of $2,500,000 was made, and Messrs. John D. Long, Wm. Endicott, Jr., and Benj. D. Whitcomb were appointed commissioners. Messrs. Brigham and Spofford of Boston were appointed architects. Since 1892, Mr. Charles Brigham has been sole architect. The builders were the Norcross Brothers of Worcester. The corner-stone was laid December 21, 1889. The first permanent occupants were the department officers of the Grand Army of the Republic, who entered Feb. 3d, 1894.

The original plan contemplated an edifice extending from Derne street on the north to the old Bulfinch structure, completed in 1798. To join this an arch has been thrown over Mt. Vernon street. Hancock street is on the west and Temple was on the east, though all the buildings between that and Bowdoin street have been removed, thus providing for a State House park. The edifice is built in Colonial style, of yellow brick, with white marble trimmings, having a granite foundation. Of floors, there are the sub-basement, basement 1st, 2d, 3d, 4th and 5th. The extreme length of the structure from Derne street to the Capitol is 401 feet, width 212 feet. The cost of the land was $1,243,225.66; January 1st, 1898, the building had cost $3,144,375.92.

In the sub-basement are found the rooms of Major Rufus R. Wade and his State detective force, etc. On reaching the first floor that fact is indicated in numbering the rooms, all of which are variations of 100. On the second floor they pass to 200, etc.; the third to 300, and the 4th to 400, etc.

During the season of 1895 the old Bryant addition was entirely cleared away and the extension was carried close up to the Bulfinch front. In this part will be, when completed, the Memorial hall and rooms supplementary to the Senate chamber and Hall of Representatives, besides additional department and committee rooms. It was completed in 1896. To provide for the completion of Memorial hall, the Legislature of 1896 appropriated $250,000. The Senate occupied the second story of the hall during the session of 1897, a temporary floor having been thrown across for this purpose.

The same Legislature appropriated $375,000 for the renewing and fireproofing of the old Bulfinch front. The directing architect was Arthur G. Everett of Boston. Under the direction of Woodbury & Leighton, the work advanced rapidly, and the structure was ready for occupancy January 1, 1898. The Senate was installed in the old Representative hall, January 5, 1898, and hereafter the room will be known as the Senate chamber.

On the death, in 1894, of Mr. Whitcomb, he was succeeded by C. Everett Clark, and the Hon. John D. Long resigning in 1897, the Hon. Geo. W. Johnson was appointed in his place. It is expected that Memorial Hall will be completed in 1899 and that the buildings will then be considered finished. Commissioner Clark died March 20, 1899, and the other two Commissioners resigned in the same month.

THE NATIONAL BANKRUPTCY LAW.

The Bankruptcy Law passed by both houses of the LVth Congress and approved July 1, 1898, provides a complete system for the administration of the affairs of bankrupts and the distribution of their property among their creditors, uniform throughout the United States and administered by the United States courts, in place of the different systems formerly in existence in the various states administered by state courts. In bankruptcy proceedings a bankrupt debtor may turn over all his property to the court to be administered for the benefit of his creditors, and then get a complete discharge from his debts. A bankrupt may, of his own motion, offer to surrender his property to the administration of the United States court and ask for his discharge in voluntary bankruptcy, or creditors may apply to the court to compel a bankrupt to turn over his property to be administered under the act for the benefit of the creditors in voluntary bankruptcy. The bankrupt who has turned over all his property and conformed to the provisions of the act is entitled to a judgment of court discharging him from any future liability to his creditors.

Extended powers are given by the law for the taking possession and the administration of the assets; among others, to allow and disallow all claims against bankrupt estates, appoint receivers and take the necessary measures for the preservation and charge of the property of a bankrupt; to arraign, try and punish bankrupts, officers and other persons and the agents, officers, members of the board of directors or trustees or other similar bodies of corporations for violation of the act; to authorize the business of the bankrupt to be conducted for limited periods; to cause the assets to be collected and reduced to money and distributed, and substantially determine all controversies in relation thereto; to enforce obedience to lawful orders by fine or imprisonment, and to extradite bankrupts from one district to another.

The proceeding once inaugurated by the filing of a petition by the bankrupt and the adjudication in bankruptcy having been made, the court proceeds to take charge of the bankrupt's property, and administer the same for the benefit of the creditors, and determine all questions which may arise in regard to the rights of the bankrupt or the creditors, either as against the bankrupt or as between themselves, in accordance with the above-prescribed powers. A trustee is appointed, either selected by the creditors at a meeting called for that purpose or, in case they fail to select a trustee, one is appointed by the court. His duty is to collect the property, realize on the same in such manner as may be for the best interests of all concerned, and ultimately distribute the same among the creditors in such proportions as they may be adjudicated to be entitled thereto.

As all questions, both of law and fact, in relation to the property or the rights of the various parties must be decided in the bankruptcy proceeding, it is provided that referees be appointed, who are charged with the duty of hearing the allegations and testimony of all parties and deciding all such questions as may arise. Each case, as it comes up, is assigned to some referee, whose duty it is to adjudicate and pass upon all such questions arising therein in the first instance, the right being reserved to any parties to appeal from the decision of the referee to the United States District Court.

The duties of the referee are substantially of a judicial character, and he occupies much the position of a judge of primary resort, subject to an appeal to the court, and is required to take the same oath of office as that prescribed for judges of the United States courts. By Section 38 of the act, the referee is invested with jurisdiction to consider all petitions referred to him by the clerks, make adjudications or dismiss the petition; exercise the powers vested in courts of bankruptcy for the administering of oaths to and the examination of witnesses, and for requiring the production of documents in proceedings before him, except the power of commitment, and, in the absence of the judge, to exercise all his powers for taking possession and releasing the property of a bankrupt, and to perform such part of the duties of the courts of bankruptcy as they may prescribe by rules and orders, excepting only questions arising on applications of bankrupts for compositions or discharges.

All questions in regard to the property or assets or rights of the creditors and persons interested come before the referee for hearing and determination, subject to the right of appeal. After the rights of all parties have been ascertained and determined, and the property has been realized upon, it is distributed among the creditors.

Provision is made in the act for allowing bankrupts to compromise or settle with their creditors by a proceeding known as composition proceedings, whereby, if a bankrupt and a majority of his creditors agree upon some basis of settlement, the

same, if approved by the court, shall become binding upon all creditors. The decision of the question as to the approval of compositions and granting discharges to a bankrupt from his debts is specifically reserved by the act to the judges of the United States courts; but the court, by virtue of its general powers, may refer such matters to the referee to take testimony and report to the court his opinion thereon.

The aim of the act has been to make the expense of the proceedings depend largely upon the amount of the property involved, and the compensation of the referees is fixed substantially at 1 per cent. on the amount distributed to the creditors in ordinary cases, where the assets are distributed by the court, and one-half of 1 per cent. in composition cases, and the trustees who have charge of the actual management of the bankrupt's property receive as compensation such commissions on amounts paid out by them as dividends as the court may allow, not to exceed, however, 3 per cent. on the first $5,000, 2 per cent. on the second $5,000, and 1 per cent. on all sums in excess of $10,000.

Detailed provisions are made in the act for giving notice to all creditors and other persons interested in the estate of the pendency of the proceedings, the payment and declaration of dividends and other matters, and providing methods whereby all parties interested may be heard on all subjects arising in the course of the proceedings.

THE GOVERNOR, THE LEGISLATURE AND THE VOLUNTEER AID.

April 15 Governor Wolcott asked for an appropriation to cover emergencies, and on that date, inside of 25 minutes, the sum of $500,000 was voted, both branches of the Legislature acting, and the governor signing the bill.

June 22 the State voted to give every enlisted man, in addition to his pay from the United States Government, seven dollars per month, the same to continue six months after his death and payable to his heirs, unless the war should end in less time.

June 23 it was voted that the governor be authorized to expend not to exceed $50,000 in the purchase of a hospital ship for the use and comfort of soldiers in the service from Massachusetts. Accordingly the "Bay State" was thus fitted up and sent out by the

VOLUNTEER AID ASSOCIATION,

which was officered as follows: Chairman, Eben S. Draper, Hopedale; Treasurer, Henry L. Higginson, Boston; Secretary, Elihu B. Hayes, Lynn; Executive Committee, Henry L. Higginson, George V. L. Meyer, Eben S. Draper, Patrick A. Collins, Elihu B. Hayes, Sherman Hoar, James Phillips, Jr., Arnold A. Rand, Charles J. Paine, Robert M. Burnett, T. Jefferson Coolidge, Jr. Office, Commonwealth Building, 11 Mt. Vernon street.

Women's Committee: President, Mrs. J. Elliot Cabot; Vice-Presidents, Mrs. Roger Wolcott, Mrs. F. T. Greenhalge, Mrs. Wm. E. Russell, Mrs. Mary A. Livermore; Secretary, Miss Lucy Lowell.

Committee on Organization of Towns: Chairman, Miss E. P. Sohier; Secretary, Mrs. Daniel Lothrop; Miss Alice S. Clement, Mrs. Eben S. Draper, Mrs. Augustus P. Gardner, Mrs. William Hooper, Mrs. Lizabeth A. Turner.

For the purposes of the association money was contributed lavishly by the public. To the general fund was given $178,630; for use at Montauk Point, $35,431, or a total of $214,061.

For the equipping of the hospital ship Bay State, and for the relief of soldiers there was expended $147,450, thus leaving a balance of $67,450, whose ultimate disposition has not, as yet, been decided upon. The State's total enlistments were 12,225, of which 2278 were in the navy, 2477 in the regular army, and the remainder, or 7470, in the volunteer service.

Thus in men and means the Commonwealth has fully sustained her long-established reputation.

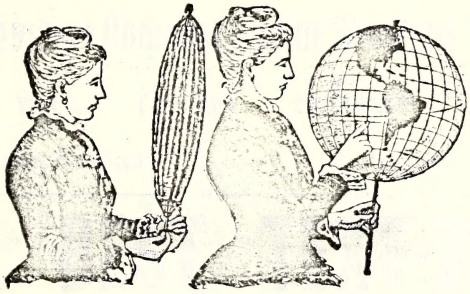
Betts' Folding Globe.

Thoroughly Accurate, Combining Extreme Lightness, Convenience and Durability.

This Globe is about fifteen inches in diameter and four feet in circumference. It consists of a framework of steel wire covered with cloth, on which is printed in permanent varnish colors a map of the world, that can be expanded or contracted at will, like an umbrella.



To the general reader this Globe is invaluable in following the daily progress of events.

It is more convenient and light to handle than an ordinary globe, while its superiority over the atlas is in showing the whole world at a glance,—the particular spot just under discussion in its relation to every other part of the earth's surface. The printing and coloring is admirably done, the maps are accurate, and the ingenious construction renders it virtually indestructible.

Wisdom in Advertising.

If Wisdom's ways you'd wisely seek,
These things observe with care:
Of whom you speak, to whom you speak,
And how and when and where.

These lines involve the greatest principle of advertising. We have learned the necessity of following this advice. We can tell you how to advertise wisely. It is our business to know of what we speak, and to know if it is a salable commodity. It is our business to know to whom we speak, and to select the proper mediums for that purpose.

How to say what we have to say in writing advertisements is also our business. Where to say it for the best advantage, the nature of the article advertised considered, deserves careful study; and when to say it, in order that the advertising may be seasonable, is of the most vital importance.

Write us and let us explain to you how it is that these little things, when properly followed out, will make advertising a success.

Our Study.

How to arrange advertisements that will help you to sell goods FOR CASH.

When you can advertise with best results.

Where as regards locality, and in what publications you should spend money.

How Much space you need to use to reap the greatest benefit from your investment.

How Little it is possible to use to secure full value for your investment.

This is and has been our ceaseless study for fifty years. We should be pleased to make its application to *your business our business.*

CITY AND TOWN REGISTER

AND

BUSINESS DIRECTORY.

EXPLANATIONS.—The towns and cities are arranged in alphabetical order, with the exception of the city of Boston, which occurs at the end of the book on tinted paper.

It has been the intention to make the list of business firms complete for each town, and great pains and labor have been expended to attain this end. Names are *not* entered, however, under more than one classification unless in entirely separate and distinct lines of business. Before concluding that some name has been omitted, please make sure that you have looked under the right heading before condemning the book. A uniform system of classification has been used throughout, with some minor alterations to suit local conditions.

Under the head of "Clergymen and Churches" the street addresses given are those of the pastors and not of the churches.

The population figures given are based on the State census of 1895.

The presiding officer in lists of Boards and Committees is designated by the letters ch. after the name.

Unless otherwise mentioned the post office address of all parties is that of the town name itself.

Constables who have given bonds and are thereby qualified to serve civil writs, are designated by the word (civil) after the name.

ABBREVIATIONS IN LIST OF CLERGYMEN.—(A. M. E.), African Methodist Episcopal; (B.), Baptist; (C. B.), Calvinistic Baptist; (Ch.), Christian; (Cong.), Congregationalist; (E.), Episcopalian; (E.
